CSCI4041 Algorithms and Data Structures. Fall 2015.

This document has text that TurnItIn requires in order to accept it. You can append on to your pdf if you are submitting a scanned image. You can append any text and it works.

If you need to merge pdf documents, you can use the free tool www.pdfmerge.com. There are other ways to merge pdf's – you can google it.

Moodle's TurnItIn is a tool to help grade and to help identify instances of plagiarism. It does this by comparing the text of the submission with on-line resources and with other assignments that have been submitted. Without any text readable by the tool, it doesn't except the submission. That is the reason for this extra text.
